

PART
1

a TCM prescription

get compounds of herbs from TCM
databases such as TCMSP, TCDIM, ...

standardize and screen compounds

get targets from databases such as
PubChem, TCMSP, ...

PART
2

a disease

targets and scores from disease
databases such as DisGeNET,
GeneCards, ...

screen targets

PART
3

intersection targets

compound-target analysis

two iterations of PageRank algorithm

GO analysis

KEGG pathway analysis
